Observations... From Around Town

(BY JAY WHOZIT)

On last Saturday we weathered our second hurricane within the comparatively short space of fifty weeks, but fortunately for us it was of short duration and mild in comparison with that of last September 19, and except for several small piers being washed away very little damage was done. The American Legion fair and baby contest was postponed from last week end, due to the inclement weather, and will be held this Saturday and Sunday at the City Hall grounds. The Labor Day weekend on the Coast was very quiet, due to the fact that most folks were afraid of the weather and also the highways were closed until Sunday evening or Monday. The testimonial banquet honoring Brother Alexis, new president of Saint Stanislaus, held last night at the Hotel Reed was largely attended and attested to the popularity of Brother Alexis. Saint Stanislaus and Bay High School will open the football season here on next Friday night, September 17th, at Stanislaus Stadium, and will mark the first time these two schools have met on the gridiron. The teenage club is gaining momentum every day, and the dances and parties which have been given so far have attracted many new members. Another local organization which has grown by leaps and bounds within the short space of two years, is the Bay St. Louis Little Theater group, which now numbers 275 members. Except for time lost in working hours, and a few tents of the super structure, the repair work being done on the highway bridge suffered no other damage from Saturday morning's blow. This was really good news because the work is progressing at such a rapid rate that we wouldn't be surprised to see light traffic moving over the bridge any day now. All schools in the city, both public and private, report the largest enrollment of students in their history, and by now all are back to actual class work. There is an advertisement in this issue asking for bids for the construction of the new movie theater for our town, by the Gem Theater Corporation, of which Mr. Charles Zerr is president. The new theater is to be located in the vicinity of deMontuville Avenue and the beach. That was a very noble gesture on the part of the membership of the local council of the Knights of Columbus, who received Holy Communion in a body on last Sunday morning and offered up their intention for the recovery of Brother Peter, whose condition though still grave is reported improved. The telephone company believes in preparedness; they had several out-of-town maintenance crews on hand here over the week end, in case an emergency arose. Also worthy of note over the week end was the fact that the electric power was not cut off at any time during the blow, with the exception of one circuit which was off for a few hours. There was a time not too far in the past when it was absolutely impossible to rent an apartment or house, but such is not the case today, and if you have any doubt, read the classified ad column in this issue or any recent issue, and you will not, how times are beginning to change.

Robert Dominy has joined his wife and two children here and they will leave Saturday for their home in Maryland. Mrs. Dominy is the former Miss Elaine Mogabgab, she and her two children have been on a visit to her parents Mr. and Mrs. Eugene Mogabgab.

W. C. Morgan of Jackson was a visitor to Bay St. Louis on Sunday. He attended services at the First Baptist Church on Sunday evening and favored the congregation with a vocal solo, "If Jesus Wants Me I'll Go." Mr. Morgan was enroute to Biloxi to attend a session of B. T. U. work and stopped off here to attend services. Mr. Morgan is former band director for Bay High.

Mr. and Mrs. Osmond Green and Lieut. John A. Green III of Mobile, Alabama, spent the week end here with Mr. Green's father John A. Green, Sr., and his family Mr. and Mrs. Walter Odie and Mr. and Mrs. John A. Green, Jr. Returning to Mobile, with her parents was their daughter Miss Margaret Green. Also visiting the Greens over Labor Day were Mr. and Mrs. Marion Green of New Orleans.

Misses Alice and Elsie Spori had with them over Labor Day week and their brother-in-law and sister Mr. and Mrs. Joseph L. Killea and Joseph, Jr., and Harry and Miss Connie Jones, and Miss Anne Williams of New Orleans. Their niece Mrs. Sterling Schoen, Mr. Schoen and their two young sons were also with them but left for their home in Wisconsin on Tuesday morning.

No Serious Damage Suffered In Our Section From Storm

Winds Reached 60 Miles Per Hour at Periods—With 5 Foot Tide—Water Covered Sections of Beach Road, Destroyed Wharves—Slight Damage To Bridge Section Under Construction

The people of Bay St. Louis, Waveland, Clermont Harbor and Lakeshore were a bundle of nerves, last Friday night, anxiously awaiting the storm that had formed in the Gulf of Mexico, and which was moving inland. Weather bureau advisories issued at intervals, at first stated that we would not be in its path, and as later reports were given out it seemed we were destined to again be the victims of the blow. Changing its course at various times the center of the storm is supposed to have struck the lower section of New Orleans.

The coast received a light touch, the wind probably reached 60 miles per hour at certain periods, and on Friday night, possibly a five foot tide. No serious property damage was suffered, with the exception of the loss of many of the wharves along the beach front.

Certain sections of the Beach Road were covered with the rising water, and below Sears Avenue in Waveland the already damaged roadway suffered additional damage. The Municipal Pier in Waveland was demolished, and the Bay St. Louis Bridge, which is presently being rebuilt at the East end, since its destruction by fire some time ago, was slightly damaged. Some of the bents of the structure that had been put in position and not completed were washed away. The barge which formed the ferry landing was cast adrift and finally went ashore on the Wolf River side of the Bay.

Sheriff Johnson and other officers of the County, together with officers of the Red Cross, sounded the warning to the people residing in the Edwardsville, Clermont Harbor and Lakeshore sections and temporary quarters were set up at the courthouse and High School, and many spent the night there. The officials of the Mississippi Power Company and the Southern Bell Telephone Company, and their employees are due commendations for their alertness. Both companies kept their service on during the blow, and their linemen were constantly answering calls to clear the lines, and service was cut off only where it was absolutely necessary for the safety of the public.

The wind subsided before noon and in the afternoon the waters of the Bay and the Sound were again peaceful.

St. Stanislaus And Bay High Football Teams To Meet In Season Opener Next Friday Night

Friday night, September 17, at 8 P. M. the Rock-A-Chaws of St. Stanislaus and the Tigers of Bay High will open the local football season on the Stanislaus field in Bay St. Louis.

Athletic relations were started between the two schools last March when the boxing teams met in a regularly scheduled match. They have never vied with each other on the gridiron and due to the keen but wholesome rivalry existing between students and supporters a capacity crowd is expected to witness the game.

Officials of both schools announce that season tickets for Bay High and St. Stanislaus will be accepted for admission. Advance dope is that the Rock-A-Chaws will be pre game favorites, but both teams will be in the shape physically and mentally and a few lucky breaks could decide the outcome.

The Rockchaws will probably field the heavier team, with the Tigers being light but exceptionally fast.

ST. STANISLAUS SIDELINES CLUB MET LAST THURSDAY

Last Thursday the Sidelines Club of St. Stanislaus had a most interesting meeting. Some thirty-five members were present for the initial get-together of the school year. Final arrangements were made for the banquet to honor Brother Alexis and the Faculty at the Hotel Reed.

Mr. Harold Weston, President of the Sidelines Club, announced that for the game between Bay High School and St. Stanislaus, Friday, September 17th, all Sidelines membership tickets would be honored at the gate by the Bay High Officials. Too, all Bay High Boosters Tickets would be likewise honored. This will also stand for all interschool activities for this season. Hence, all members of the Sidelines Club must have their membership tickets with them in order to get into the game. No one will be admitted without a ticket.

Both teams have been hard at work for the past few weeks in order to give the fans a bang up game. The Stanislaus team is rather green and light. Only three letter-men have returned from the 1947 squad. It is to be hoped that with the opening of classes, some few more may report to bolster the team.

The Sidelines Club will meet Wednesday, September 15th at 8 p. m. at the college.

W. M. FAYARD, KILLED BY TRAIN AT WAVELAND

W. M. Fayard, 65 years of age, was killed at an early hour Thursday morning by the Louisville & Nashville Railroad freight train No. 73 at the St. Joseph Street crossing in Waveland.

Sheriff B. D. Johnson said that he was called to Waveland by Mrs. Garfield Ladner at 4:45 A. M., and when he and Justice of the Peace M. D. Rutherford arrived they found Mrs. Ladner, her son and daughter train engineer H. M. Minshew, Conductor J. W. Ellis and "Dave" the brakeman and H. E. Cooper the fireman already on the scene of the accident. Mr. Johnson said that Minshew and Cooper both made the statement that they saw the man on the track at the same time and the engineer said that he applied the emergency brakes but could not stop the train.

Mr. Rutherford empaneled a jury and a verdict "killed by L. & N. freight train No. 73 engine number 1358." ENSIGN KENNETH SCOTT KILLED IN NAVY PLANE CRASH

News has been received here to the effect that Ensign Kenneth G. Scott of Gulfport was killed at Pearl Harbor when two Navy planes crashed into a peak on the western tip of Maui Island during maneuvers on Tuesday of this week.

Stokoe, all of Gulfport.

Ensign Scott served in World War II and was a pilot of a torpedo bomber which was making a predawn attack on a destroyer group approaching Hawaii. "The Navy said the bomber struck the peak presumably because of poor visibility," according to report received here. The fighter plane closely following the bomber saw the crash and pulled up in time to make a flat landing near the wrecked bomber which had burst into flames. A crewman aboard the bomber was killed also but his name was not available.

The trip up Mount Reiner, the boat trips from Seattle to Victoria and Vancouver through Puget Sound, then the Canadian Route through the Canadian Rockies to Lake Louise, Banff and home from Chicago.

But Mr. and Mrs. Mauffray thought they said it was far beyond their expectations and could not be duplicated yet they were glad to be back in Bay St. Louis.

FAST RELIEFORTTE THEATRE
WED. - THURSDAY
"UP IN CENTRAL PARK"

With Deanna Durbin And Dick Haymes

"Up In Central Park," a splendid musical production, made from the long-run Broadway stage hit and starring Deanna Durbin, Dick Haymes and Vincent Price, comes Wednesday and Thursday to the Ortte Theatre.

It is, bigtime entertainment. Packed with good music and singing, a more credible story than most musicals and impressive with generous production by Universal-International, the picture, deftly directed by William A. Seiter, is an unflinching delight from opening to final fadeout.

Irish Immigrant
The story, which has Miss Durbin and her father played by the Irish newcomer Albert Sharpe, arriving in this country from Ireland and falling into the hands of old New York's infamous Boss Tweed political machine, permits the presentation of musical numbers composed by Sigmund Romberg and Dorothy Fields. These are of widely varied content, ranging from a patriotic solo "Oh Say Can You See What I See?" by Miss Durbin to the novelty number.

Dick Haymes plays a crusading reporter for the New York Times, whose pitiless publicity wrecks Tweed, played by Price, who is Haymes' rival for Miss Durbin's affections.

Deanna sparkles brightly as the ingenious colleen with operatic ambitions. In addition to other numbers she sings the operatic selection "Pace, Pace, Dio Mio" from Verdi which gives full range of her increasing vocal talents.

Price Plays Boss Tweed
Price is magnificent as Boss Tweed investing the role with humor and romance it did not have in the stage version.

Haymes is outstanding as the ideal.

BILBO'S BROTHER CONGRATULATES BILL COLMER

GULFPORT, MISS.—Among the hundreds of congratulatory messages received by Rep. William M. Colmer (D. Miss.), following his re-nomination August 24 in the Sixth Congressional District Democratic primary, was a telegram from John A. Bilbo, Poplarville, only surviving brother of the late Senator Theodore G. Bilbo.

Mr. Bilbo, highly-respected pioneer citizen of Pearl River county,

istic reporter who spurns crooked money to pursue the course of duty. A noteworthy feature of the picture is the American ballet choreography by Hene Tamiris. Mary Grant designed the stunning period wardrobe for Miss Durbin. Milton Krasner was the photographer. "Up In Central Park" was produced and written for the screen by Karl Tunberg.

Tom Powers and Hobart Cavanaugh are other notables in the cast.

wired Mr. Colmer as follows:

"CONGRATULATIONS ON OUR VICTORY AND BEST WISHES."

The Poplarville farmer supported Mr. Colmer in his campaign against Grover C. Doggett, Laurel City attorney, whom the congressman defeated by more than 7,000 votes in the 16-county district.

Replying to Mr. Bilbo's Wire, the congressman said:

"YOUR WIRE AND YOUR SUPPORT DURING THIS CAMPAIGN IS DEEPLY APPRECIATED. AS YOU POINTED OUT IT IS OUR VICTORY AND IT IS A REPUDIATION OF THE RECENT UNFAIR CHARGE THAT I FAILED IN MY DUTY TO YOUR LATE AND LAMENTED BROTHER. ALWAYS GRATEFUL."

Winter Grazing Profitable In Milk Production

STATE COLLEGE, MISS.—Land used for winter grazing of dairy cattle produced an income of \$113.22 per acre in a test on a farm owned by L. L. Ladner, Jr., of Pearl River county last year, according to John B. Gill, agronomist of the South Mississippi Branch Experiment Station at Poplarville. Mr. Ladner and other South Mississippi dairymen cooperated with the Experiment Station in conducting winter grazing tests.

* This high return per acre was obtained by continuous grazing on oats and crimson clover for six months. The oats were sown September 30, and late in October, when the oats were about three inches high, 20 pounds of crimson clover seed were broadcast per acre.

In another test, on the Jim Dale farm in Stone County, oats used for continuous grazing by dairy cattle produced an income of \$66.94 per acre while oats used for early grazing and later harvested for grain produced \$59.82 per acre. These figures, like those from the Ladner farm, do not represent net profit since no expense was deducted for labor used in feeding and milking the

cows. All cost of seed, fertilizer and labor used in growing the oats, however, was deducted.

Under South Mississippi conditions winter grazing with oats and a combination of oats and crimson clover has been very profitable for two years, Mr. Gill said. Dairy cows practically doubled their production with oat grazing and very little concentrate feed and beef type steers made excellent gains on oat grazing alone.

"Oats and a combination of oats and crimson clover will furnish grazing from the middle of November to May 1 under average conditions," he declared. "Results of two years' experiments indicate that oats alone produce about as much milk or beef as a combination of oats and crimson clover. Where crimson clover was sown the oats did not need a spring application of nitrogen while a plot without the clover needed additional nitrogen in the spring. However, the clover seed usually cost more than the spring application of nitrogen."

Oats that are over-grazed at any time during the grazing season usually fail to make rapid recovery and produce less total forage, the tests showed.

Mississippi Forestry Rangers Inspecting Seedlings Donated To Landowners Last Year

Area Forest Rangers for the Mississippi Forestry Commission are actively engaged in inspecting tree plantations planted last fall with seedlings donated to landowners as provided by the 1946 Session of the Legislature. Efforts are being made to determine the survival of seedlings and the causes of loss, announces M. O. Stark, Forest Management Director. These seedlings were grown at the Forestry Commission's Mount Olive Nursery.

Up to 5,000 seedlings could be donated to each landowner provided he agreed to properly plant and care for the seedlings and protect them

from fire and livestock damage.

Under this law, 102,000 seedlings were donated to 28 landowners in Hancock County during the last planting season, Ranger T. V. Marlar of Pass Christian states.

COUNTY AGENT NOTES

Sweet potato storage houses should be cleaned, repaired and disinfected before the season for harvesting the new crop of sweet potatoes, Extension Service specialists advise.

"A large percent of the commercial sweet potato crop should be properly stored either in farm or commercial storage houses this fall," declares Chesley Hines, Extension horticulturist.

Thorough clean-up of all old potatoes, dirt and waste material in and under the storage house is the first important step. Eradication of rats and mice is also important. After careful inspection, needed repairs should be made to provide a rat-proof building.

An adequate supply of storage crates should be provided, and all used crates should be repaired and placed in the storage house to be disinfected.

Heating equipment should be tested and repairs made if needed. Destruction of disease germs in the storage house and on used crates

Bygone Days

By UDELL FAVRE

AUGUST THROUGH DECEMBER 1895

The fire department dropped plans to rebuild the fire house and were trying to secure sufficient funds to purchase a new fire engine.

At the time there were twelve grocery stores in Bay St. Louis.

Mrs. Joseph L. Favre, 32 years of age, died.

Miss Laura Fayard of this city and Mr. A. Peyroux of New Orleans were married.

"When the poet Keats wrote A thing of beauty is a joy forever, he must have heard of Bay St. Louis," an item that appeared in the Echo.

Mr. Jesse Knight and Miss Lilly Ladner both of waveland were married by Father LeDuc.

Mr. Herman Von Gohren son of Dr. Von Gohren was married in New Orleans.

Mr. and Mrs. R. Telhiard announce the birth of a son.

Mrs. William Ames died after an illness of about one year. Besides her husband the deceased left two small daughters.

Mr. Bayhi donated a lot of land for the new Catholic Church that was to be built near the cannery.

Mr. John F. Mauffray and Miss Eliza Shreiber were married in New Orleans.

A long pole was put up on top of the postoffice from which weather signals were to fly.

In order for the force to celebrate Christmas properly, the Echo was taking a holiday and the paper was not to come out that week.

Bay St. Louis was growing very fast; new stores and drug stores were springing up.

CHEER LEADERS FOR BAY HIGH SELECTED

The cheer leaders for Bay High's 1948 Football season had their try-out at the morning assembly period at the school on Wednesday of this week. Those selected by the judges were Audrey Mays, head cheer leader, Betty Lusk, Mike Murphy, Mary Lou Sciana, and Raymond Tomlinson.

After the students gave their cheers and the selections were made Coach Ellis Guillory introduced the team, who will play their first game with Stanislaus on September, 17.

Mrs. Carl Smith, George Wimberly, Ellis Guillory, and T. J. Broadus acted as judges.

A three-year enlistment in the U. S. Army lets you write your own ticket. Volunteer now.

is essential, Mr. Hines pointed out. Effective methods of disinfection included spraying with bluestone solution and fumigation with formaldehyde gas or by burning sulphur. The sulphur treatment is the most economical and simplest.

Sulphur fumigation is done by burning three-fourths to one pound of common flowers of sulphur to each 1,000 cubic feet of space in the house.

Metal containers set on brick to raise them off the floor should be used for the sulphur to void fire danger. Do not use containers with soldered parts.

Distribute the required amount of sulphur in several containers, set it afire and immediately leave the house. All doors and ventilators are kept tightly closed for 24 hours.

Effectiveness of fumigation is increased if the inside of the house is lightly sprayed with water about two days before applying the treatment.

Housing Pullets

Plan well in advance of cold weather to house pullets which are still on the range. Extension Service poultrymen advise.

Check the laying house and equipment now for repairs which may be needed before moving pullets to it. Labor saving improvements can sometimes be made at this time, poultrymen point out.

Giving the laying house a rest is good practice. By moving the old hens out of the house at least one month before the pullets need to be housed, the cycle of diseases is broken to a greater extent.

As soon as the birds are moved out, the house and equipment should be thoroughly scrubbed. Paint the roosts, poles and other equipment with carbolineum as a good means of controlling mites.

Plan to start deep litter when birds are placed in the laying house. If this is done at the time of housing, pullets will work it over properly, breaking it up into small particles.

More litter should be added from time to time to build a deep litter before cold and damp weather begins making the house drier and warmer for the birds.

Birds must be fed properly throughout the laying period, since maintenance requirements take the major portion of feed consumed, poultrymen declare. Even if a hen is in heavy production, at least 75 to 80 percent of her food is needed for maintenance.

Veterans' News

Dependents of deceased World War II veterans who get death compensation checks from the Veterans Administration will receive individual reminders of their possible entitlement to income tax refunds, and of the necessity for applying for them before the end of the year, VA reports.

Thereafter, authorized by Public Law 367 of the 80th Congress, apply to certain income taxes of members of the armed forces who died while in active service between December 7, 1941 and December 31, 1947. Application must be made by December 31, 1948.

Subject to refund under the law are all Federal income taxes paid by or on behalf of such members of the armed forces for the taxable year in which they died, and for prior tax years dating back to December 7, 1941, during any part of which they served.

Most members of the armed forces—particularly enlisted men—were exempt from income tax under special wartime law. Consequently, the number entitled to rebates is not expected to be large, and the VA notice advises dependents first to make sure taxes actually were paid before seeking refunds.

Forms for applying may be obtained from the office of any collector of internal revenue (Form 843). Applications for refunds and any correspondence on the subject also should be directed to the Collector of Internal Revenue where the tax was paid, and not to VA or the Bureau of Internal Revenue in Washington.

The number of veterans of all wars

reached 18,744,000 on May 1, 1948, the VA reports. Of these, 14,887,000 served in World War II. The remainder were veterans of World War I and other wars.

In 1955, VA predicts, the number of veterans of all wars will be 17,200,000 and the number of persons in their families, 42,900,000.

QUESTIONS AND ANSWERS

Q—I am a World War II veteran and intend to go abroad for several years. Does VA have representatives in foreign countries?

A—The Foreign Service of the Department of State cooperates with Veterans Administration in the Administration of certain benefits available to veterans in foreign areas.

Q—Does VA attempt to improve types of prosthetic aids available to veterans?

A—Yes, Veterans Administration conducts extensive research projects in attempting to discover new and better prosthetic devices.

Q—Is a disabled veteran in on-the-job training permitted to receive wages and if so, how much can he receive?

A—A disabled veteran in on-the-job training may receive wages while subsistence allowance exceeds the training, but if the wages plus his journeyman rate for a trained worker in that occupation, the subsistence allowance will be reduced by VA proportionately. However, other payments that he receives from VA because of his disability will not be affected.

Q—Will Veterans Administration pay for the medical care of my dependents?

A—No. Under existing laws, only eligible veterans are entitled to VA medical care.

Soldiers call service in Japan the "best duty in the world." Men who enlist for three years in the U. S. Army can choose service with a famous division in Japan at 20 percent extra pay.

NOTICE

Senate Bill 156: "Forest Harvesting Act"

PURPOSE: to provide better management of timber lands; to assure a more dependable supply of forest products for future needs; to supply income for labor and timber growers and to keep the mills running.

(PINE STANDS)

REQUIRES: that four pine seed trees 10 inches in diameter or larger

(OR)

100 saplings 4 inches in diameter or larger be left on each acre cut.

(HARDWOOD STANDS)

6 hardwood seed trees 10 inches in diameter or larger.

(OR)

100 saplings 4 inches in diameter or larger be left on each acre cut.

(MIXED STANDS)

All hardwood can be cut provided the above pine requirements are complied with.

(NAVAL STORES)

If pines less than 10 inches in diameter are worked, 4 unfaced or unworked pine seed trees 10 inches in diameter or larger.

(OR)

100 saplings 4 inches in diameter or larger be left per acre.

PENALTY: When 10 per cent or more of the area is cut or worked in violation of this law, a penalty of not less than \$25.00 and not more than \$50.00 will apply for each 40 acres or part thereof cut or worked.

NOTE: Measurements are taken outside the bark 12 inches above the ground for pine and above the butt swell for hardwood.

It is the duty of the Mississippi Forestry Commission to secure compliance with the requirements of this law. The success of this act will depend upon the owner, operator, contractor and the user. It benefits all. Good management pays good dividends. Why not practice good management?

For further information see or write your area forest ranger. T. V. Marlar, Box 353 Pass Christian.

LANDOWNERS: Please read all timber sale contracts carefully. Don't sign contracts or affidavits agreeing to place land in pasture or row crops unless you already plan to do it. Get those timber cutters to leave the seed trees as required by this law.
